HARVEST - 2021

The reduced winter rains of 2021 brought a second consecutive year of drought that was felt across the valley. The headwinds, coupled with dry, difficult conditions during bud determination in 2020, resulted in a light vintage for 2021. Earlier ripening sites, on hillsides or with limited soil water, trended even earlier than normal due to the dry conditions and lightened crop load. Overall grape quality is quite high across the board with great color, balanced tannin structure and ideal chemistry.

TASTING NOTES

This golden wine has bright aromatics of peach, orange blossom, pear and a subtle touch of flinty notes. On the palate it brings a brilliant citrus entry and melon and green apple acidity throughout. Finishing with a balanced creaminess from aging on the lees, it has a satisfying long finish.
